Cut 4 to 5 feet (1.2 to 1.5 m) of wired or free-form burlap ribbon. With this technique, you can create a big bow with several smaller bows stacked on top, giving it a fancier look. For this length range, burlap ribbon measuring 2 to 4 inches (5.1 to 10.2 cm) wide should work well. You can, however, use larger widths. Wider ribbon can actually ...

This technique states that the actual computer hardware should be simple and not need to be hand-wired for each program. Instead, complex instructions should be used to control the simple hardware, allowing it to be reprogrammed much faster. The second concept was also extremely important to the development of programming languages. Von Neumann called it "conditional control transfer" (www ...

Many people are wired to thrive on ego and reject anything that threatens their ego. In fact, our brains often struggle to detect a real threat from a threat to our ego (which you'd know already if you watched the quick video). If you are close-minded or functioning below the line, you're not allowing personal growth to manifest. Instead, you may think, well, I don't need personal ...
